| | | <hr/> \$751 95 |

The Engineers are able to report Engines 3, 4, and 5, with other fire apparatus belonging to the Town, in good working condition. We would also congratulate the citizens of the Town in having passed another year so fortunately in the matter of fires, there having been but three alarms: One at the village of Mr. Simpson, in August, burning a picker-house, &c. The Department were promptly on the ground and did good service. One at a dwelling-house in Bramanville; the other at the machine-shop of A. H. Waters & Co., in February, both of which were extinguished without the aid of the engines, although promptly there. We called a parade of the Department in October, feeling that in the absence of fires something was needed to keep up an interest in it, and we were highly pleased with the efficiency displayed by the members in working their machines, and felt that we could rely on them in case of need to do good work. We also feel that the trifling expense incurred by the Town will be thought to be money well expended. We would also call the attention of the Town to the matter of leading hose. Although having had all that we have put in as good order as possible, we feel that some of it is getting old and not very reliable, and will have to be replaced with new soon; and we would recommend the purchase of at least one hundred feet of new the coming year. The Department at present, when full, numbers 95 men, and we commend them to your generous support for the future. We find that the engine-house at West Millbury needs shingling and some other repairs, and that all the houses need painting; and recommend an appropriation for the same.

All of which is respectfully submitted.

D. B. CHASE,
BENJA. BRIERLY,
H. L. BANCROFT, } *Engineers
